

FRONTIER
PRO-4X

Boost your PRO mode

Nissan Frontier PRO-4X is ideal to make things happen. Designed under our Frontier pickup legacy, it is made to withstand anything. This model is so PRO that it can take you as far as your imagination goes. With Nissan Frontier PRO-4X, all you need is an objective to conquer all.

Consult equipment level and availability by version and geographic area with your Nissan Authorized Dealer or visit us at [Nissan.com.mx](https://www.nissan.com.mx)

Climb up, down, get dirty, do it again and keep looking good.

Stand out with its bold grille and 17" off-road rims. The adventure continues with its LED headlights with automatic on/off and fog lights when the night falls. The design of Frontier PRO-4X is a statement to inspire you to go further.

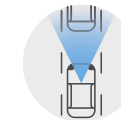

Intelligence to meet any challenge

Nissan Intelligent Mobility technologies are the complement you need to go further.

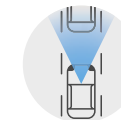

INTELLIGENT AROUND VIEW MONITOR*

This innovative system provides you with a 360° aerial view of your surroundings when parking your vehicle or circulating at 10 kph or less; in addition, it has Moving Object Detection (MOD), which alerts you when obstacles, pedestrians and moving objects are encountered, helping you to prevent accidents.

INTELLIGENT EMERGENCY BRAKING**

With the use of radar technology, the system detects danger of collision with the vehicle in front and warns the driver with hearing and visual alerts to brake. In case the driver does not apply the brakes, the system will automatically apply them to avoid or mitigate an impact.

INTELLIGENT FORWARD COLLISION WARNING***

It monitors the speed and distance of up to two vehicles ahead of your Nissan by visually and audibly alerting you in case of sudden braking.

INTELLIGENT DRIVER ALERTNESS

If there is a change on the way you drive during a considerable period of time at a speed above 60 kph or if it detects signs of exhaustion, the system will send an audible alert and activate a cup of coffee icon on the screen to indicate it is time to take a break.

HILL START ASSIST (HSA)

When you are on a steep hill and release the brake to press the gas pedal, the assistant will prevent your Nissan Frontier PRO-4X from going backwards for a few seconds.

HILL DESCENT CONTROL

This system is designed to reduce the workload when descending steep slopes, helping you reduce the speed of the vehicle whilst going down.

Images for illustrative purposes only.

Intelligent Around View Monitor** cannot completely eliminate blind spots and it may not detect all objects. *Intelligent Emergency Braking** cannot prevent accidents due to a lack of care or dangerous driving techniques. It cannot provide a braking alert in certain conditions. *****Intelligent Forward Collision Warning** should send an alert before a collision occurs. It cannot avoid an impact. For more information, consult the Owners Handbook. Features and specifications are subject to change depending on the requirements of the market. Consult equipment level and availability by version and geographic area with your Nissan Authorized Dealer or visit us at Nissan.com.mx

Reach beyond your objective

Challenging terrain becomes your own playground with Nissan Frontier PRO-4X. Drive across sand dunes or go through mountains like a PRO with the help of the **differential blocking** and the **4WD off-road system**; discover the combination of strength and precision that comes from decades of designing authentic all-terrain trucks.

162 ^{HP}	175 ^{LB-FT}	960 ^{KG}	1,588 ^{KG}
@6,000 rpm	@4,000 rpm of net torque	Maximum Load Capacity	Towing Capacity

233 ^{mm}	31 - 25.3 [°]	22.9 [°]
Ground Clearance	Attack Angle	Breakover Angle

The Utility Track System is perfect to secure even the heaviest load. The system has two channels along the cargo bed and four resistant hooks that allow you to place stable strap points practically anywhere.

The new bumper-integrated step allows an easier access to the area.

Keep control with the Frontier PRO-4X Nissan Advanced Drive-Assist® 7" Display. Whether it is on your next off-road adventure or in your city rides, the 7" display will show you accurate information of the vehicle. In just one glance, you'll be able to know details about the music you are listening to or to see the navigation system, as well as being aware of the assist alerts for the driver.

NissanConnect®

Synchronize your Nissan to your smartphone with NISSANCONNECT®. An improved Bluetooth® allows you to connect up to 2 devices at the same time. It is your turn to add the next soundtrack to the adventure.

Keep your contacts close with Apple CarPlay™. Listen to your playlists from iTunes®, make calls and check voice messages. Locate your destination with Apple® maps and find the best route. Access Spotify™ by activating the voice command from the steering wheel or dictate and listen to your texts through Siri®.

With Android Auto™, you'll be able to access to the apps installed on your Android phone from your new Nissan Frontier®. Organize information on windows while you look for your destination on Google Maps or find the best route with Waze. Listen to your favorite music on Spotify™ or Google Music, and make calls and send messages through voice commands so you don't get distracted while driving.

This recovery system is an optional service that allows you to follow your Nissan's location and even immobilize your car in case it's stolen, through Nissan Assistance on the Road and NissanConnectMR Finder*.

MOVEMENT ALERT:

Receive a notice on your smartphone or an email.

FOLLOW ME:

Follow your Nissan's location for periods of 15 minutes.

NAVIGATION:

Identifies places of interest and guides you through the navigation system.

FIND ME:

Get your Nissan's location with just one click.

HORN:

Activate your Nissan's horn (up to 8 times) to find it.

NISSAN DRIVE ASSIST.

SPEED ALERT:

Establish a speed limit and receive alerts.

ROADMAP RECORD:

Check the routes your Nissan has made.

CUSTOMER SERVICE CENTER.

GEOFENCES:

Draw virtual geofences and receive notices.

Consult terms and conditions, FAQs, compatible telephones and activation guide at Nissan.com.mx/connect to use Android Auto™, a compatible vehicle or an accessory radio equipment is required, as well as a telephone that executes Android's version 5.0 (Lollipop) or a newer version. Apple CarPlay™ is available for iPhone®5 and newer models. CarPlay®, Siri®, iPhone® and Apple® are registered marks of Apple Inc. Apple CarPlay™ is a registered trade mark of Apple Inc. Accessories not included, consult equipment level, availability by version and geographic area with your Nissan Authorized Dealer or visit us at Nissan.com.mx

The PRO starts from the inside

Enjoy the style and comfort the off-road leather seats offer you with unique details embroidered on orange and black panels. Whenever you're about to dominate an obstacle, do it with comfort.

Rubber mats: Restrain liquids and dirt, preventing them from getting to the vehicle's floor. Its strong fixation to the carpet does not interfere with the pedals.

Spare tire nut: Keep your vehicle's spare tire safe.

Off-road side footboard: Equip your PRO4X with off-road side footboards that offer an easy climbing and descent from the vehicle.

Double toolbox: Store your tools and keep them on board with the help of this box that is fastened to the vehicle's box walls.

Tray bicycle carrier: Protect your bicycles and your pickup on your next adventure with the adjustable and resistant padded surface of the bicycle carrier.

• Applies

Nissan Intelligent Mobility guides everything we do. We use new technologies to transform our vehicles from simple machines for travelling to road trip partners. Together we make more safe, exciting and connected trips for your everyday needs. Whether it's with vehicles that help you drive or highways that charge your electric vehicle while you drive on them. Everything is part of a near future. A future that starts shaping the Nissan you drive today.
